# Logo Structure & Safe Zones

The parts of the logo have been labeled for your convenience so that you know what part of the logo we are referring to when we use the terms above.

The first job of a logo is to be a signature for the company that it represents. However if another logo or body is placed too close to the logo it becomes part of the landstar logo. The Letter L is used to create a safezone around the Landstar logo to make sure that the landstar logo will not be placed too close to other logos or objects.

# Correct Logo Usage

## Stationery

The stationery were designed to reflect the new Landstar logo. It is used to promote the new look and feel of Landstar across all business departments

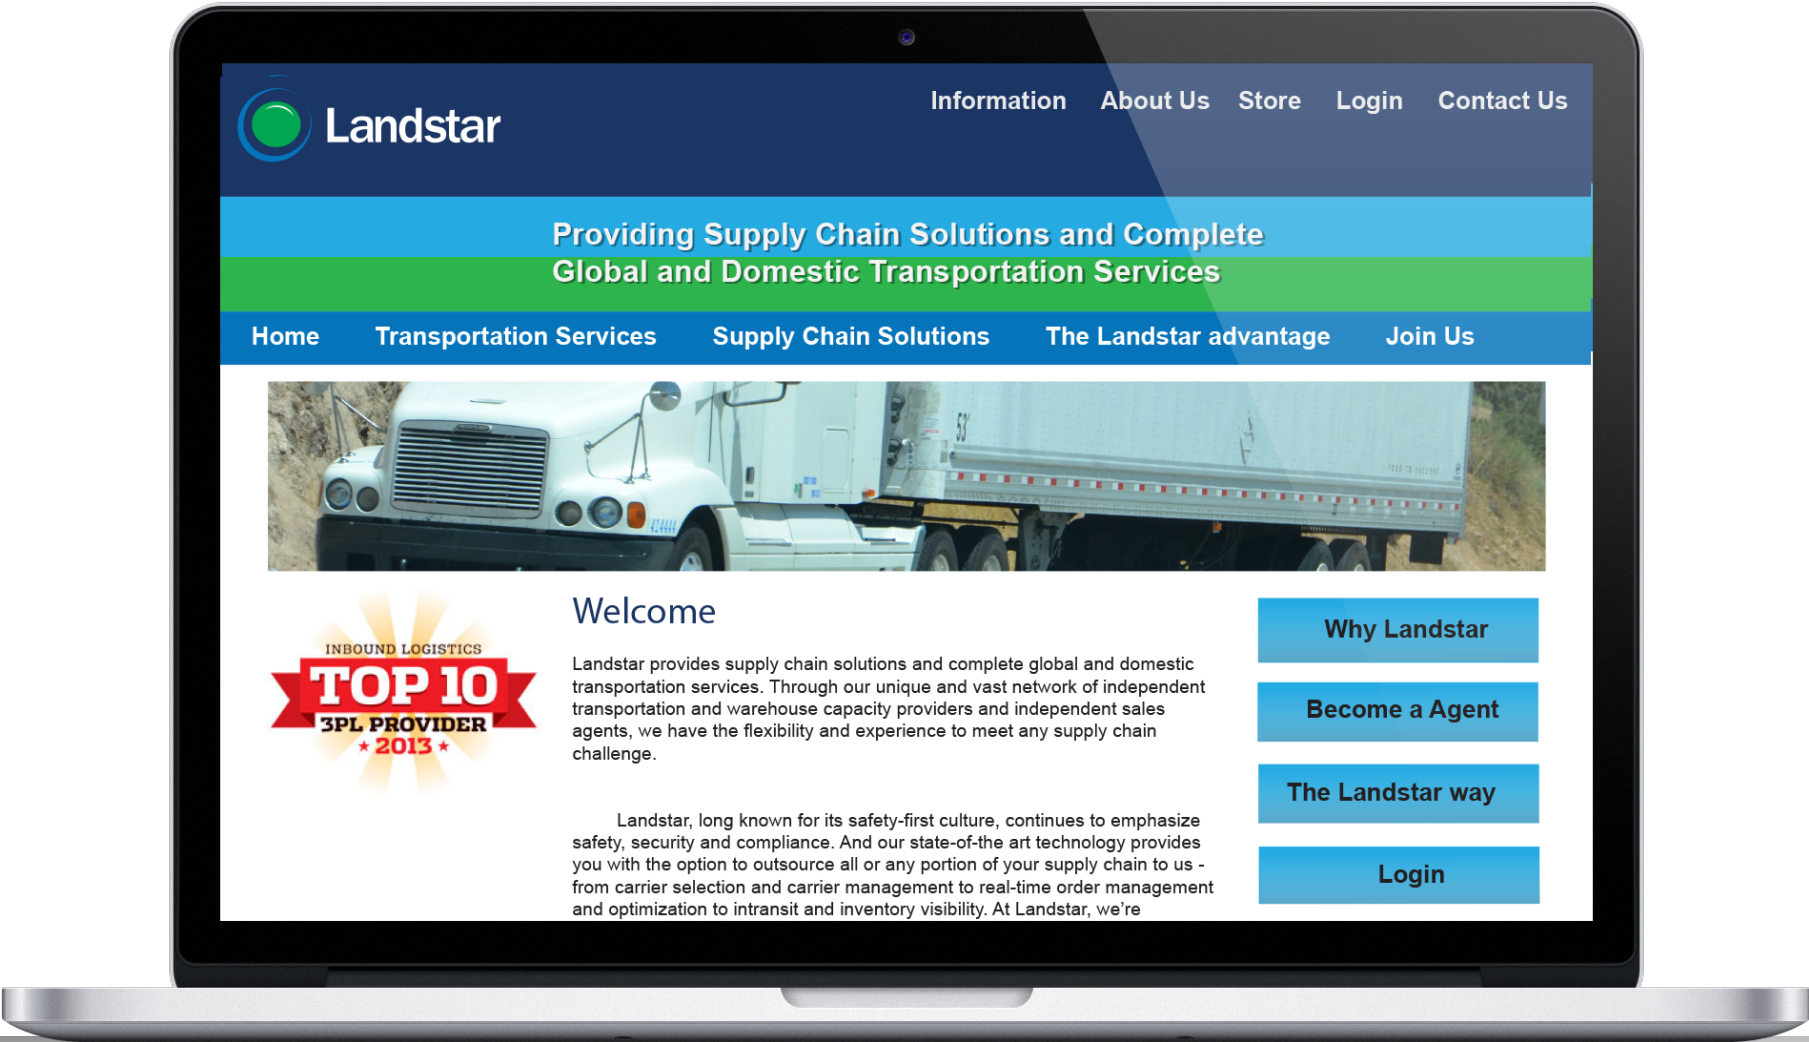

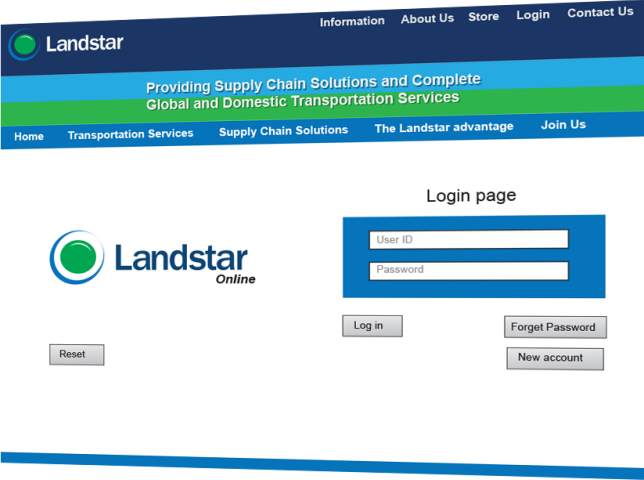

# Landstar App

An app will be developed that will let the agents access their accounts without going to the Landstar web page. This will allow them to communicate with dispatchers instantly and efficiently. The results are that this will save Landstar time and money.

# Website Design

A new site will be developed with the new logo. The new website will carry the natural and green theme of the new Landstar logo. The new website will match the theme of the app. As well as feel fresh and clean.

# Promotional Products and Uniform

An array of items will be sold at live events and online. These items will be used to showcase the new logo and will be used to spread the awareness of the Landstar brand.

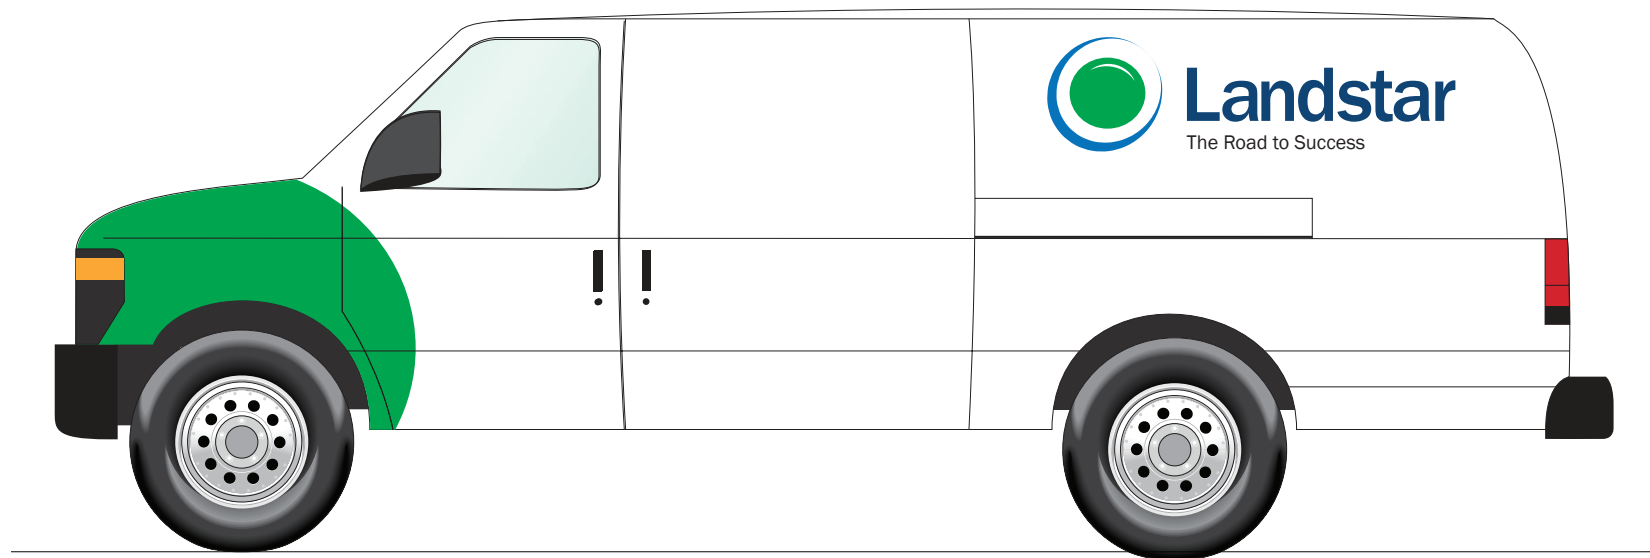

An array of items will be sold online so that Landstar Agents can show their pride.

# Vehicle Design

The Landstar vehicles will be redesigned as well so that they match the new logo. Colors and shapes from the brand mark will be used to make the vehicles pop. The Vehicles are designed in a way so that the colors seem like as if they are coming off the vehicles.

# Wayfinding

The Landstar headquarters will be rebranded with the new logo. This will include the sign on the building as well as the monument sign in front of the building. A new banner is also going to be made that will be displayed at Landstar events.
